PROFILE

Front-End & Mobile Developer with experience building interactive and responsive using React, Vue, and Flutter. Contribute to informative app projects, content-driven platforms, and intuitive navigation systems. Focused on optimal performance, accessibility, and user experience through clean and structured code. Always strive to deliver efficient, modern, and user-friendly software solutions.

EDUCATION

Universitas Brawijaya

Bachelor of Information Technology

August 2023 - Present

GPA: 3.89/4.00

EXPERIENCE

Front-end Web Developer - UNIKAHIDHA

June 2024 - December 2024

- Developed responsive and user-friendly article pages using React and Tailwind CSS, implementing a secure admin login system with password authentication and hashing.
- Created a comprehensive Content Management System (CMS) that enables real-time content creation, editing, and management with optimized performance and scalability.
- Implemented best practice in state management to enhance application maintainability and improve overall user experience.

Tech stacks: React, Tailwind CSS, Inertia Js, Laravel, MySQL

Front-end Intern Developer - EM UB

September 2024 - December 2024

- Developed a responsive company profile video page with an intuitive UI/UX, enabling direct video playback and ensuring smooth access across multiple devices.
- Implemented an interactive media player with advanced features including playback controls, full screen mode, and adjustable video quality for enhanced user experience.

Tech stacks: React, Tailwind CSS, Inertia Js, Laravel, MySQL

Web Developer & Admin - KBMDSI

Maret 2024 - December 2024

- Actively managed KBMDSI website by regularly updating information, writing, editing, and publishing articles, announcements, and latest news about organizational activities.
